TECHNICAL SKILLS

Programming

- python

Machine Learning

- Scikit-Learn
- XGBoost
- LSTM
- GRU

Data Analysis

- EDA
- Data Cleaning
- Data Preprocessing
- Feature Engineering
- Statistical Analysis
- Forecasting

Visualization & BI

- Power BI
- Data Visualization
- Interactive Dashboard
- KPI Reporting

Libraries

- Pandas
- NumPy
- Matplotlib
- Streamlit

PROFESSIONAL SUMMARY

Machine Learning Engineer and Data Analyst with a strong passion for transforming data into actionable insights through analytical thinking, statistical techniques, and predictive modeling. Experienced in data analysis, machine learning, forecasting, business intelligence, and automation. Skilled in building intelligent solutions that simplify complex workflows, uncover hidden patterns, and support data-driven decision-making. Proficient in Python, Power BI, and modern data science tools for developing dashboards, predictive models, and interactive applications.

WORK EXPERIENCE

Temperature Forecasting Using GRU

- Developed a forecasting model using Gated Recurrent Unit (GRU) neural networks.
- Collected and processed more than 8,000 historical daily weather observations.
- Predicted maximum temperature, minimum temperature, wind speed, and wind direction.
- Generated multi-day forecasts for upcoming weather conditions.

Flexible Financial Data Retrieval API

- Developed a flexible data retrieval system for financial market data using Python.
- Utilized WebSocket communication for real-time data acquisition.
- Implemented dynamic time-range selection and multiple timeframe support
- Used Pandas and Datetime libraries for data processing and transformation.

Real Estate Sales Analytics Dashboard

- Conducted data cleaning, transformation, and ETL processes on real estate sales datasets.
- Performed exploratory data analysis using Python and Jupyter Notebook.
- Built analytical dashboards using Power BI and Python.
- Created visual reports to improve stakeholder understanding of sales performance.

EDUCATION

Bachelor of Business Information Systems (BIS)

Al-Alsun Higher Institute , Egypt

June 2026
